

User Role settings for Code Library and Audit Log not working

The screenshot shows the PIMS - User Roles configuration page. The 'User Access Rights' section lists various modules with their access status. The 'Code Library' and 'Audit Log' modules are highlighted with red boxes, and their toggle switches are in the 'disabled' (grey) position. A red arrow points from the 'Code Library' link in the left sidebar to the 'Code Library' toggle in the settings panel.
