

## WHAT TO DO IF SOMEONE IS RAPED?

**1.** Advice the victim to seek the help of a counselor or a therapist who is an expert in handling cases of sexual abuse.

**2.** Assist her in securing a safe and temporary shelter if she needs to move to another place for security reasons. She can be referred to a crisis center or any government agency that offers temporary shelter.

**3.** Make sure that the evidence is safe and intact. This would help should the victim decides to file a case.

**4.** Secure a Medico-legal certificate from a Medico-legal officer. Absence of bodily injuries does not mean that rape did not occur or that the case may not be pursued anymore.

**5.** Support the victim along the way when she decides to file a case.

**6.** Ensure that she is prepared in all aspects. Make her understand the overall picture of the case. Inform her that it is possible that doctors, police, lawyers and judges would not be sensitive to her situation and experience.

**7.** Help the victim choose the lawyer who understands her most.

**8.** Coordinate with people who can assist or support her all throughout.
